

Meeting 11/1/17

Wednesday, November 1, 2017 11:00 AM

Agenda:

- Dump blocks
- Use one row, multiple rows, throw in compression, see what happens

What we did:

- Created table with dummy data
- Tested dropping the table (uncompressed and compressed)
- Viewed and attempted to analyze the difference in trace files

For next week:

- how to read compressed block
- how to read an uncompressed block
- (just continue research)
